

# HELP KEEP PLYMOUTH CLEAN AND TIDY – AND AVOID EXPENSIVE FINES!!

Your collection day is .....

- **Recyclables are collected in Green wheeled bins or Green reusable bags every fortnight**
- **Rubbish is collected every week in Brown Wheeled bins or Black Bags if a property does not have space for a wheeled bin**

Please ensure that all recycling and rubbish is contained in the correct colour bin or bag and placed outside at the boundary of the property for collection **by 6.30 am** on your collection day, but **not before 6.30 pm the day before**. Please bring the bins/bags back onto the property as soon as possible after collection.

<p>If you put the wheeled bins or bags out too early you may receive a Fixed Penalty Notice – this will cost you £80. Repeated offences could lead to prosecution.</p>
--

It is important that rubbish and recyclables are properly stored prior to collection and removed from the property regularly in order to avoid problems with littering, vermin and flies. Rubbish and recycling that is not contained in the correct bin/bag will not be collected. Failure to keep the property clear of refuse could result in you being charged by the landlord/agent for having to undertake this on your behalf.

For details of what can be recycled in the Green Bin and further information on collections and centres for recycling glass and other recyclables that cannot be recycled in the Green Bin please see the Household Waste & Recycling Collection leaflet or log onto [www.plymouth.gov.uk/recycling](http://www.plymouth.gov.uk/recycling)
