

Correction to Appendix D

The Distribution of Scores from the Village Sustainability Assessment Framework

The break points used to produce the grouping shown in J.L.P. Figure 5.8 are:

30 and above = Indicative Level of 30

20 and above = Indicative Level of 20

Update to Appendix E

Following a revision and up-dating of the data the revised score for Rattery is 18.5 which places the village in the group of villages with an indicative level of 10 as shown in JLP Fig 5.8.

Factor	Value	Current score for Rattery	Revised score	Notes
Village Shop	3	1.5	0	Rattery has no shop
Post Office	2	1	0.5	The mobile post office is open only for 1 hour per week
Access to employment by public transport	2	2	0	Rattery has no public transport
PROW	2	2	1	Rattery is in the lowest 20% in Devon for PROW
Mobile phone coverage	2	2	1	This brings Rattery into line with the 15 other villages with the same level of coverage.
Community Bus Service	2	2	1	The only community service to Rattery works to a fixed schedule and does not offer the flexibility of dial and ride services enjoyed by other villages.
Commercial Bus Service	1	1	0	There is no commercial bus service

Corrected Table for Appendix G

The corrected scores do not significantly change the outcomes. The application of these formulae would result in an accurate, evidence based and proportionate figure for each village and a total delivery consistent with the housing supply predictions of the JLP.
