NORTH PLYMSTOCK AREA ACTION PLAN – FURTHER SUBMISSION ID:NP 0775

Dear Mrs Self

Further to my original submission and my telecon of today. I would like to make further comments against the proposed construction of a new road across the middle of St Georges public playing field Elburton.

At the public meeting held at the Plymouth Guild Hall it was made very clear by The Prince's Trust planning team that the proposed road would run at the bottom of the playing field alongside the new quarry boundary fence. Subsequently this was changed without any consultation to the middle line. This road would then bisect the playing field from the changing rooms/pavilion and is not a fit for purpose scenario.

Please bring this to the attention of Mr Machin and I would also like to make representation at the hearing.

Yours sincerely

John Goodship
