

On Wednesday during the discussion on Matter 8 a hearing participant referred to a planning application at Stibb Lane, (planning ref 3954/17/FU) in reference to JLP Policy TTV10 and suggested that the Highway Authority Response was at conflict with DCC's Reg 19 representation.

The County do not believe it is and we would like to make it clear that we are not objecting to the allocation at Stibb Lane and policy TTV10. For information the response to the application is attached. DCC as highway authority has made representations on the planning application and acknowledge that planning applications are outside the remit of the Local Plan Inspectors and as such the Inspectors are not able to take into account DCC's response to the planning application.
