

Re Mr D Blackburn

Following my earlier email of additional comments in relation to the supply of suitable SHLAA sites, I would like to add to this representation and note our support of the Further Minor Modification (Document EXC10 Ai - January 2018) that suggests amending the Strategy for TTV Policy Area, Figure 5.8 to include Grenofen within the list of Sustainable Villages able to accommodate around 10 dwellings each.

We still wish to attend the hearing session on Thursday as we are keen to ensure that the Inspectors' retain this support and to justify this inclusion.
