

PLYMOUTH SUPPLIER DIRECTORY

Terms of Registration

By completing the registration form you are requesting a place on the Directory, Plymouth City Council cannot guarantee your application will be successful.

This is a business to business platform and any supplier not meeting this criteria will have their application rejected. The Council and its partners will only accept applications from businesses that trade on a moral and ethical basis and will not support businesses that could bring the reputation of the Council into disrepute or may have a detrimental effect on people's wellbeing.

Being registered on the Plymouth Supplier Directory does not give your organisation the right to take part in any given procurement activity and does not guarantee your company any level of business.

Buyers are not obligated to use the Directory and Directory Partners have made no binding commitments.

The Directory is not part of any pre-qualification or vetting process and procurement opportunities will not be advertised or run on this platform.

Subsequently you may be asked by buyers to register on other portals and complete additional paperwork. Please see our 'Find a Buyer' for more details on how individual Partner's do business.

Terms of Use

The purpose of the Plymouth Supplier Directory is to facilitate business-to-business transactions; if you are a private individual, you should not use this Directory to find local suppliers.

The Plymouth Supplier Directory is for informational purposes only.

The Directory does not constitute an endorsement or an approval by Plymouth City Council of any of the products, services of the companies listed.

The Directory does not form part of any pre-qualification or vetting process and Plymouth City Council and its associates, affiliates and partnering organisations will not be liable for any procurement or contractual issues that arise with suppliers sourced using the Directory.

Buyers are responsible for undertaking their own due diligence including but not limited to health and safety, safeguarding, technical and professional ability, economic and financial standing and guarding against any illegal and unethical behaviour.
